

Aftermarket News (Jan'23)

1. Phased Out Applications

COOL GEAR Compressor and COOL GEAR Expansion Valve

<Background>

The following 3 COOL GEAR Part No. have been phased out with no replacement.

Product	Part No.	Reason for phased out
COOL GEAR Compressor	XI437230-7080	No sales and no future demand
COOL GEAR Expansion Valve	047500-9052	Broken molding tools and low demand
COOL GEAR Expansion Valve	447500-9021	Broken molding tools and low demand

<Next Action>

Please stop ordering the phased out Part No.

2. (Reminder) Packaging Change – COOL GEAR Compressor

COOL GEAR Compressor

<Background>

In line with Global Packaging Guidelines, the made-in-China COOL GEAR Compressor box design will be revised (made-in-Japan compressors are already revised).

<Results>

Packaging box and box label will be revised on running change basis, from Nov'22 onwards.
 The first Part No. to change is YN437190-0140.

Below table shows the details of revised packaging box (only printing change, no change in box type/dimensions):

Current	New
	<p style="background-color: yellow; display: inline-block; padding: 2px;"><Actual image not available></p> <div style="display: flex; align-items: center; justify-content: center;">  <div style="margin-left: 20px;"> <p>(1) Remove "DENSO CORPORATION"</p> <p>(2) Example of Revised Label</p> </div> </div> 

<Next Action>

Please take note of the new packaging.
