

## Aftermarket News (Dec'25)

### **1. Packaging Change**

#### **COOL GEAR Compressor**

##### <Background>

In line with Global Packaging Guidelines, the made-in-Indonesia COOL GEAR Compressor box will be revised (Made in-Japan and made-in-China compressors are already revised).

In addition, inner material will be changed from styrofoam to carton to eliminate non-eco material.

##### <Results>

Inner material, packaging box and box label will be revised on running change basis, from Jan'26 onwards.

Below table shows the details of revised packaging box (only inner material and printing change, no change in box type/dimensions):

<b>Current</b>	<b>New</b>
<p>Inner material: Styrofoam</p> <p>Box design and label:</p> 	<p>Inner material: carton</p> <p>Box design and label:</p>  <p>Main changes:</p> <ul style="list-style-type: none"> <li>• Centralised COOL GEAR Logo Arc (non-full print)</li> <li>• Label design change</li> </ul>

##### <Next Action>

Please take note of the new packaging.
